IONICA

Ionica Fly Rod

£189.99 NEW

The Ionica is Wychwood's flagship fly rod, crafted from high-grade, high-modulus carbon fibre, utilising advanced resin technology. Ionica delivers unparalleled performance with its medium-fast action, excelling where sensitivity and control are needed most. The rod provides the finesse required for delicate presentations yet retains the power to tame your chosen quarry and ensuring a smooth, accurate cast every time. Its stunning oil slick 'Sea Guide' ring guides, durable anodised, machined aluminium skeletal reel seat, and elegant 'non-flash' matte blank will make it stand out from the crowd whether fished from the bank or boat. Fish with comfort and control using the ergonomically designed composite cork handle, colour-coordinated EVA detailing, and a fighting butt for handling larger specimens. Elevate your fly-fishing experience with the Ionica.

- Ultra-Lightweight Construction: Crafted from premium graphite for easy handling and fatigue-free casting
- Enhanced Casting Distance: Optimized taper design and fast-action blank ensure smooth, long-distance casts with minimal effort
- Supreme Sensitivity: Feel every nibble with precise line control, perfect for subtle strikes in any water conditions.
- 4-Piece Design: Breaks down for easy travel while maintaining the strength and responsiveness of a one-piece rod.

Ionica Fly Reel

from £92.50 NEW

The Ionica by WychwoodIntroducing the Ionica Fly Reel by Wychwood. This reel is designed for anglers who demand top performance, durability, and style. Ionica is fully CNC machined from 6061 aerospace-grade aluminium billet with a Hard-Anodized saltwater resistant finish, making the Ionica lightweight yet robust. The reel offers unapparelled performance with a fully sealed carbon and PTFE multi-disc drag system, ensuring a smooth and reliable experience.

- Precision Sealed Drag System: Delivering smooth, consistent resistance with our advanced multi-disc drag system, giving you full control over your line and the fight.
- Lightweight 6061 Grade Aluminium Construction: Engineered from corrosion-resistant, aircraft-grade aluminium for superior durability without added bulk.
- Saltwater-Resistant Design: Sealed components protect against saltwater corrosion, making this reel versatile enough for both freshwater and saltwater adventures.
- Large Arbor, Closed Full Frame Design: Ensures faster line retrieval and reduces line memory, making your fishing experience more efficient and enjoyable.
- Ergonomic, machined POM Handle: Provides a comfortable grip for extended use.
- Captive Spool Release
- Bespoke Reel Case (EVA)
- Designed in England

Drift River Reel

£149.99

The Drift fly reel is our dedicated dry fly and river nymphing reel; developed specifically with the river angler in mind. With its large diameter arbor and full frame design; Drift provides the perfect reel for the dry fly and river nymphing angler.

Machined from Billet 6061 grade Aluminium and finished in a durable green hard-anodised finish, incorporating a fully sealed disc drag system, slim profile; full frame design, we have created a lightweight reel that will withstand the rigours of modern river fly fishing techniques.

- Ambidextrous tool free design to change spools and retrieval direction
- Fully CNC machined 6061 grade aluminium
- Full frame design eliminates tippet passthrough and improves rigidity. Excellent for Euro/Czech nymphing
- Deep V Spool profile for additional backing capacity and Large Diameter Arbor for reduced line memory
- Fresh & salt water safe
- Hard-anodised, machined aluminium handle with knurled grip
- Sealed waterproof carbon and Teflon based multilayer disc drag
- Hard-anodized matt finish
- Captive Spool Release
- Bespoke Reel Case (EVA)
- Designed in England

Truefly Mk11

from £99.99

The stunning new range of Truefly FA (Fast Action) rods offer a significant leap forward in terms of performance and design, utilising the latest multi-layer carbon technologies. Their fast action makes them an excellent casting rod capable of achieving some serious distance when needed. The Truefly FA is as capable of fishing lures deep on a fast-sinking lines as it is dry fly fishing on a floating line making it the perfect all-round rod for today's modern Stillwater Angler. The Truefly FA's contemporary styling and modern fittings really make these rods truly stand out from the crowd. Truefly MF The stunning new range of Truefly MF (Medium Flex) rods offer a significant leap forward in terms of performance and design utilising the latest multi-layer carbon technologies. These Rods feature a forgiving middle to tip action making these rods extremely easy to cast, perfect for everyone from beginner to experienced angler alike, perfect for short to medium range fishing. Their forgiving action acts like a shock absorber reducing smashed takes on light tippets and hook pulls. The Truefly MF's contemporary styling and modern fittings really make these rods truly stand out from the crowd.

PDR Predator Fly

£169.99

With predator fly fishing growing in popularity Wychwood have brought out a trio of fly rods to meet this demand. From small rivers and canals to fishing huge reservoirs there is a rod in the range to suit every venue where pike, perch and zander are targeted. These rods can also be used in saltwater for species such as bass. Based on MLT (multilayer carbon technology) blanks, these rods have a powerful medium action for casting and turning over large, air-resistant flies in all weather conditions in addition to having plenty of reserve power in the butt section for landing specimen sized fish.

- High Modulus, MLT Toray Carbon Blank
- Machined, anodised reel seat featuring
- Four-piece construction
- EVA handle and fighting butt

Wychwood Connect Series II Feather Floater: The new Connect Series II fly lines are created using the latest in modern fly line technologies featuring a bespoke taper for easy casting. These 30 yard lines have ultra-low memory for the ultimate line presentation. The highly popular stretchy core helps reduce hook pulls and smashed takes. The Connect Series II Feather Floater is the Ideal line for tricky situations where optimum stealth is required to fool wary fish feeding on or near the surface.

CONNECT SERIES

Taking on board comments and ideas from some of the top names in the fishing industry about fly line and tippet functionality, over the last few years, the Wychwood design team found three key areas that kept popping up in conversation. The vast majority were obsessed with casting distance, fly presentation and most importantly take detection.

With all of the products featured under the Connect Series we have all bases covered.

There's nowhere for the fish to hide.

Leader & Tippets

Leaders and tippets are the most popular 'must have' items in fly fishing, behind flies that is and as such they should be selected with care. Our new Connect Series has been designed so that all fishing situations can be addressed effectively without any compromise. Remember diameter is key with fluorocarbon selection and not breaking strain.

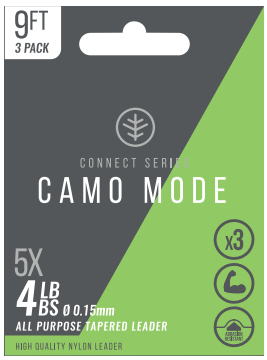

Camo Mode Tapered Leader

£6.99

These are very high quality nylon tapered leaders designed for the river angler.

- Unique mottled colouration
- High quality nylon extrusion
- Superb linear strength
- High abrasion resistance
- Extremely supple

EVA Wader Stacker Bag

£79.99

This EVA stacker bag has two sections to allow you to separate your boots from your waders. Durable drainage ports on the front allow you to tip out any excess water and for ample air flow to aid in drying.

- Waterproof material with welded seams
- Detachable, Two tier stacker system
- Durable rubber drainage ports on both bags
- Comfortable Moulded plastic shoulder strap
- Dimensions (Each bag); 380mm (w) x 180mm (h) x 380mm (d)

H0951	EVA WADER STACKER BAG	£79.99

EVA Compact Reel Case

£34.99

Complementing the range is this compact reel case. With a rigid form, this case will protect your reels from the elements and the internal dividers can be positioned to suit you. A clear lid allows you to see the contents of the bag without unnecessary opening.

- Waterproof material with welded seams
- Transparent lid
- External carry handle
- Padded interior with movable dividers
- Modulates into the EVA Boatman bag
- Dimensions; 240mm (w) x 110mm (h) x 240mm (d)

H0953	EVA COMPACT REEL CASE	£34.99

EVA Large Reel Case

£44.99

Just like the Compact Reel Case, the Large reel case is an effective reel storage solution, but aimed at those with a few extra reels and spools to carry. With double the internal space, the Large reel case has a padded interior and movable dividers that move to suit the user.

- Waterproof material with welded seams
- Transparent lid
- External carry handles
- Padded interior with movable dividers
- Modulates into the EVA Boatman bag
- Dimensions; 490mm (w) x 110mm (h) x 230mm (d)

H0952	EVA LARGE REEL CASE	£44.99

EVA Cool Accessory Bag

£39.99

Utilising the benefits of the EVA system, the cool accessory bag has a thermal lined interior that will keep your bait or lunch cool for hours. The rigid sides give extra protection to the contents inside.

- Waterproof material with welded seams
- Opaque lid
- External carry handle
- Insulated interior
- Modulates into the EVA Boatman bag
- Dimensions; 240mm (w) x 110mm (h) x 240mm (d)

H0954	EVA COOL ACCESSORY BAG	£39.99

EVA Accessory And Drogue Bag

£29.99

The accessory case has been designed to comfortably store a drogue and clamps, yet it has a wide variety of applications and tackle storage. Simple and with minimal fuss, this bag will modulate into the Eva Boatman bag as a neat and tidy storage solution.

- Waterproof material with welded seams
- Opaque lid
- External carry handle
- Modulates into the EVA Boatman bag
- Dimensions; 240mm (w) x 110mm (h) x 240mm (d)

H0955	EVA ACCESSORY / DROGUE BAG	£29.99
