TG76NP KVD Elite Triple Grip® Treble Hook - 2X Short

£5.99

The specially engineered shape of the Mustad KVD Elite Series Triple Grip® Hook combines exceptional hooking and holding capability with outstanding strength. Based upon the original Triple Grip® series, the modified design by Kevin VanDam features a precise shape that “locks” a fish into the elbow of the bend, making it virtually impossible to throw the fish hook. The precise point alignment provides for an optimal angle of point impact, which leads to increased power at hook set. One important bonus is that the angled shape makes this hook less prone to snagging on structure than round bend trebles. The 2X short shank eliminates hook tangling and allows you to use larger hooks. Use this premium treble hook for fishing bass, pike, zander, and more on your favourite heavy freshwater crankbaits to get more hookups.

Assault Wide Gap

£5.99 NEW

Mustad Assault Wide Gap Hook are built for landing lunkers. For versatile applications, these bass hooks are made for high hook-up ratios and secured hook-sets on big fish. The Z-bend and epoxy at the eye holds and protects soft plastics, perfect for wide gap hook applications like Texas and Carolina rigs, while also great when flipping. Mustad's new Tak-bend places the point above the eye and at a more level angle with the bait, making the lure flush with the point and improving hook-sets compared to traditional bends. The aggressive bend gets plastic out of the way on a bite for quick penetration while also preserving strength and integrity when fish try to throw the hook. With Mustad's AlphaPoint; hook point technology, precision fishing takes advantage of the slimmer, ridiculously sharp point combined with the durability anglers expect from Mustad. The nano-thin TitanX finish with a sleek gun-metal look supports the sharpness of the hook and the smoothness maximizes penetration.
