TKS

TOP KIT SOLUTION

Now in its third generation of poles, TKS has proven to be a huge success because of the way that regardless of budget, any angler can buy into and enjoy its benefits. From budget poles through to flagship offerings such as the 1001, we're proud to be providing poles that stand the test of time because of their versatility. Add in the option of purchasing spares that are universal across the range and it's clear to see why TKS is the pole system of choice for 1,000s of anglers across the UK.

Whatever TKS pole you buy, you can rest assured that there will be top kits to suit your needs. With a universal design that sees ALL our kits fit ALL of our poles, performance is never compromised thanks to the highest grade of carbons and features like reinforcement bands and pre-fitted pure PTFE bushes. With a choice of power, match and F1 Shalla kits, no matter how you fish there's a top kit to fit your pole and for that matter, any TKS pole ever produced.

Fusion

A process that bonds two different grades of carbon together enabling us to develop lighter, stronger and more rigid poles. This process is used on all models.

Graphene Resin

Graphene is a material extracted from Graphite, and is an incredible tough, flexible and light material especially when mixed with Carbon.

MTM Carbon

All materials used in the production of TKS poles are purchased from the one of the world's largest carbon manufactures – Toray in Japan.

Elastic Ratings

Each TKS pole has been designed here in the UK, so you can be assured they can withstand the elastic rating we put on each model.

Smooth Ship Finish

This is an anti-friction finish that's added to each TKS model to ensure smooth shipping when fishing. It also prevents your hands sticking to the pole whist wet.

Every TKS pole in the range comes with the following features:

- Anti-Friction finish throughout
- Understated lightweight graphics
- Side pullers fitted on all kits
- PTFE bushes fitted on all kits
- Unique depth markers on all kits
- Section alignment system
- Rated up to No20 Power kits/No14 Match Kits
- Each top kit supplied with the pole comes with printed depth markers as standard

TKS G10

£599.99 NEW

The TKS G10 is a power house of a pole. Using Graphene materail, impregnated into the carbon with heat transfer, we have created an all-round pole that that's incredibly robust due to the nature of the material, yet remains incredibly well balanced and light. This model is ideal for anglers who demand strength, but not at the compromise of quality or performance. The G10 is manufactured off the same mandrel as the TKS 101, however due to the Graphene Resign, each section has been sustainably increased in wall strength, without adding additional weight you would normally get by adding layers of carbon. Each top kit supplied with the G10 features a unique depth marker print, so you can quickly find the correct amount of depth you require, or know what depth you were actually fishing at. Also, each top kit is also supplied with an extra-long PTFE bush fitted as standard, and fitted with our unique side roller puller

- Features:
- Anti friction finish throughout for easy shipping
- Depth markers on all kits
- Sleek understated artwork
- Fitted side roller pullers
- Extra-long pure PTFE bushes fitted on all kits
- Section alignment system
- 1190g @ 13.0m
- Standard package includes:
- 1 x V1 Pre-Bushed DM Match Kit Fitted
- 2 x V1 Pre Bushed DM Power Kits
- 1 x Rigid Cupping Kit with Cups
- 1 x Reinforced Mini Extension
- 1 x Pole Bag

TKS G20

£899.99 NEW

The TKS G20 is the perfect all-round pole, this 14.5m pole is more than capable of handling anything you want it to do. Using Graphene materail, impregnated into the carbon with heat transfer, we have created an all-round pole that that's incredibly robust due to the nature of the material, yet remains incredibly well balanced and light. This model is ideal for anglers who demand strength, but not at the compromise of quality or performance. The G20 is manufactured off the same mandrel as the TKS 301, and offers full interchangeability, however due to the Graphene resin, each section has been sustainably increased in wall strength, without adding additional weight you would normally get by adding layers of carbon. Each top kit supplied with the G20 features a unique depth marker print, so you can quickly find the correct amount of depth you require, or know what depth you were actually fishing at. Also, each top kit is also supplied with an extra-long PTFE bush fitted as standard, and fitted with our unique side roller puller.

- Features
- Anti friction finish throughout for easy shipping
- Depth markers on all kits
- Sleek, understated artwork
- Fitted side roller pullers
- Extra-long pure PTFE bushes fitted on all kits
- Section alignment system
- 1400g @ 14.5m
- Standard package includes:
- 1 x V1 Pre-Bushed DM Match Kit Fitted
- 2 x V1 Pre-Bushed DM Power Kits
- 1 x short F1 kit
- 1 x Rigid Cupping Kit with Cups
- 1 x Reinforced Mini Extension

TKS G30

£1,350.00 NEW

The 16.0m TKS G30 is an exceptional pole, and uses the same mandrel as the TKS 501, which has always been considered one of the best ever poles produced for its price point, so offers full interchangeability with the 501. The G30 has reached new highest in performance, and offers superb balance, weight and stiffness even at its longest length. As with all the G Series poles, we have used Graphene materail, impregnated into the carbon with heat transfer, that has helped create all-round pole that that's incredibly robust due to the nature of the material, yet remains incredibly well balanced and light. Each top kit supplied with the G30 features a unique depth marker print, so you can quickly find the correct amount of depth you require, or know what depth you were actually fishing at. Also, each top kit is also supplied with an extra-long PTFE bush fitted as standard, and fitted with our unique side roller puller.

- Features
- Anti friction finish throughout for easy shipping

Side Puller Beads

£2.25

Two sizes and rubber beads designed to use when fishing with a side puller. Manufactured in a soft, and ultra-durable rubber with a recess hole for your elastic knots.

- Designed to use in conjunction with side pullers or puller bungs
- Ultra durable rubber
- Will fit elastics from size 4 to 12
- A diamond eye elastic threader is recommended to pull elastic through the bead

R0011	SIDE PULLER BEADS SMALL	£2.25
R0012	SIDE PULLER BEADS LARGE	£2.25

TKS Hybrid Pole Elastic 6m

£8.50

Available in 8 sizes and all supplied in 6m lengths, allowing more then just one top kit to be elasticated and up to 3 shallow kits! TKS Hybrid elastic combines the durability of a solid elastic, but with more stretch than a hollow elastic and is perfect for silver fish through to carp depending on size. This new hybrid elastic is so much better than solid elastics in performance in durability and stretch factor.

PTFE Side Puller

£4.99

The MAP PTFE Side Puller Bush is the new benchmark for ultrasmooth, reliable side puller operation.

R3050	PTFE SIDE PULLER	£4.99

Roller Side Puller

£8.99

The Side Roller Puller eliminates any friction when pulling the elastic when playing fish due to the internal wheel. This help prevents wear and tear and prolongs the life span of the elastic. Can also be fitted into ant slotted TKS kit. Features: · Pure PTFE bush · internal roller wheel · 2 x bushes per pack · Can be fitted into any slotted TKS top kit ·

R2785	ROLLER SIDE PULLER	£8.99

Map Puller Bung

£4.50

Fits TKS top kits without cutting.

- Fits all TKS top kits without cutting back
- Will also fit most competitor's poles without cutting back
- Super wide bore for hollow elastics
- Pure PTFE runner bush
- Supplied with 2 sizes of rubber stopper beads

R0010	MAP PULLER BUNG	£4.50

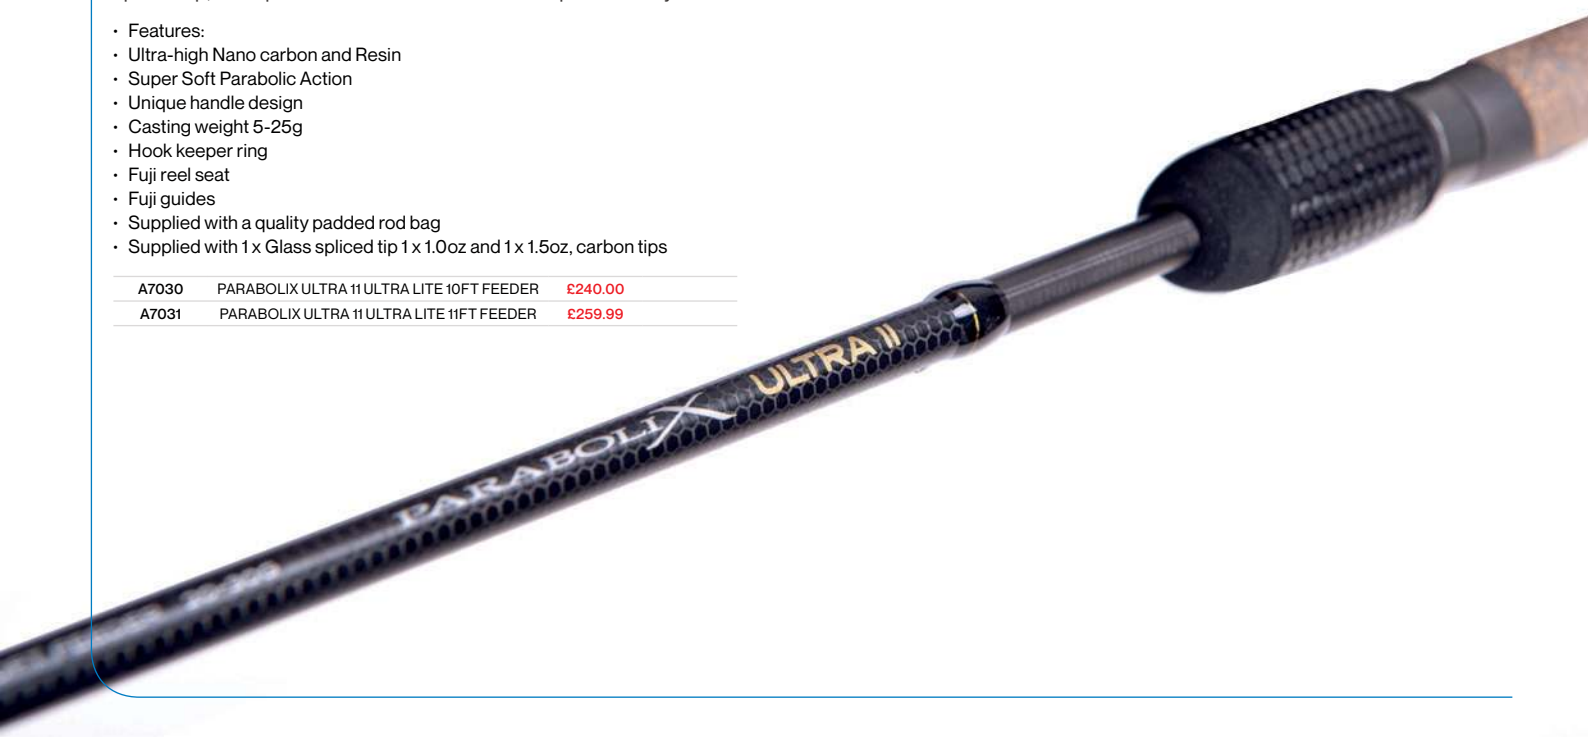

Parabolix Ultra 11 Ultra Light Rods

from £240.00 NEW

Manufactured using Nano Carbon, the 10ft Ultra 11 Ultralight feeder has been designed for silver fishing, or F1 winter fishing. Incredibly slim, and softer in action that the Parabolix Pro version. This rod offers an incredibly super soft, through action, yet offers enough backbone to be able to cast a feeder where you want it. Ideal for fishing up to 30m and perfect for roach and skimmers. Supplied with an ultra-fine glass spliced tip, to help with bite detection on those super hard days.

- Features:
- Ultra-high Nano carbon and Resin
- Super Soft Parabolic Action
- Unique handle design
- Casting weight 5-25g
- Hook keeper ring
- Fuji reel seat
- Fuji guides
- Supplied with a quality padded rod bag
- Supplied with 1 x Glass spliced tip 1 x 1.0oz and 1 x 1.5oz, carbon tips

A7031	PARABOLIX ULTRA 11 ULTRA LITE 11FT FEEDER	£259.99

PARABOLIX ULTRA II

Parabolix Ultra II Feeder Rod Range

from £230.00

Manufactured using Nano Carbon, the new Parabolix Ultra 11 Feeder rod range offers stronger action throughout its range, enabling you to cast further, and more accurate, without the action being compromised when playing fish. Nano Carbon and resin is an incredibly robust material in strength, and almost twice as strong as conventional resins when cured, yet without any change in weight or in action. These attributes have helped us develop our best range of feeder rods. Power in the lower sections of Each rod has been increased to ensure casting is accurate, which we all know is vital when feeder fishing. However, due to the extra flex Nano material offers, the action is still non-locking when playing fish, which all Parabolix rods are renowned for. No matter how hard you pull, the rod will not lock up! Not only have we improved Each rods action, but we have also improved the tips that fit them. Each carbon tip supplied with the rods are now softer and more progressive, and much improved over conventional carbon material. Each two-piece blank, is supplied with over-sized, Fuji guides and a Fuji reel seat. The unique rubberized handle ensures grip is never lost, no matter what the weather, and Each rod is supplied a set of high-quality neoprene rod wraps, as well as a padded cloth rod bag.

- Nano carbon 2-PC blank
- Parabolix non -locking action
- Attractive Gold tippets on whippings
- Unique anti-slip rubberized handle design
- Oversized fuji guides
- Fuji reel seat
- Supplied with 0.5oz, 1.0oz and 1.5oz carbon tips
- Supplied with quality neoprene rod wraps
- Supplied in quality padded cloth bag

Parabolix B/E Pro Distance Rods

from £245.00 NEW

The Parabolix Pro Distance feeder rods are capable of casting feeder's extreme distances with ease. Produced on a unique mandrel, designed with a fast taper makes this the perfect rod for big waters and extreme conditions when you need to hit a target at distance. They feature large American Tackle oversized guides, that aid distance casting, and also aid the use of shock leaders. Even though there is a lot of power in the lower sections, we have taken considerable time getting the fish playing action on these just right, to eliminate those hook pulls that some distance rods have a habit of doing, when the fish is close to the net. There are three models in the range, 3.6m, 3.9m and 4.20m to cover all venues and situations.

- Features:
- Ultra-high modulus carbon
- Parabolic Action
- Unique handle design
- Casting weight 20-160g
- Oversized American Tackle guides to aid casting
- Hook keeper ring
- Fuji reel seat
- Supplied with a quality padded rod bag
- Supplied with 2.5oz, 3oz and 4oz big guide carbon tips

MAP

PARABOLIX BLACK EDITION

Parabolix Black Edition Pro Rods

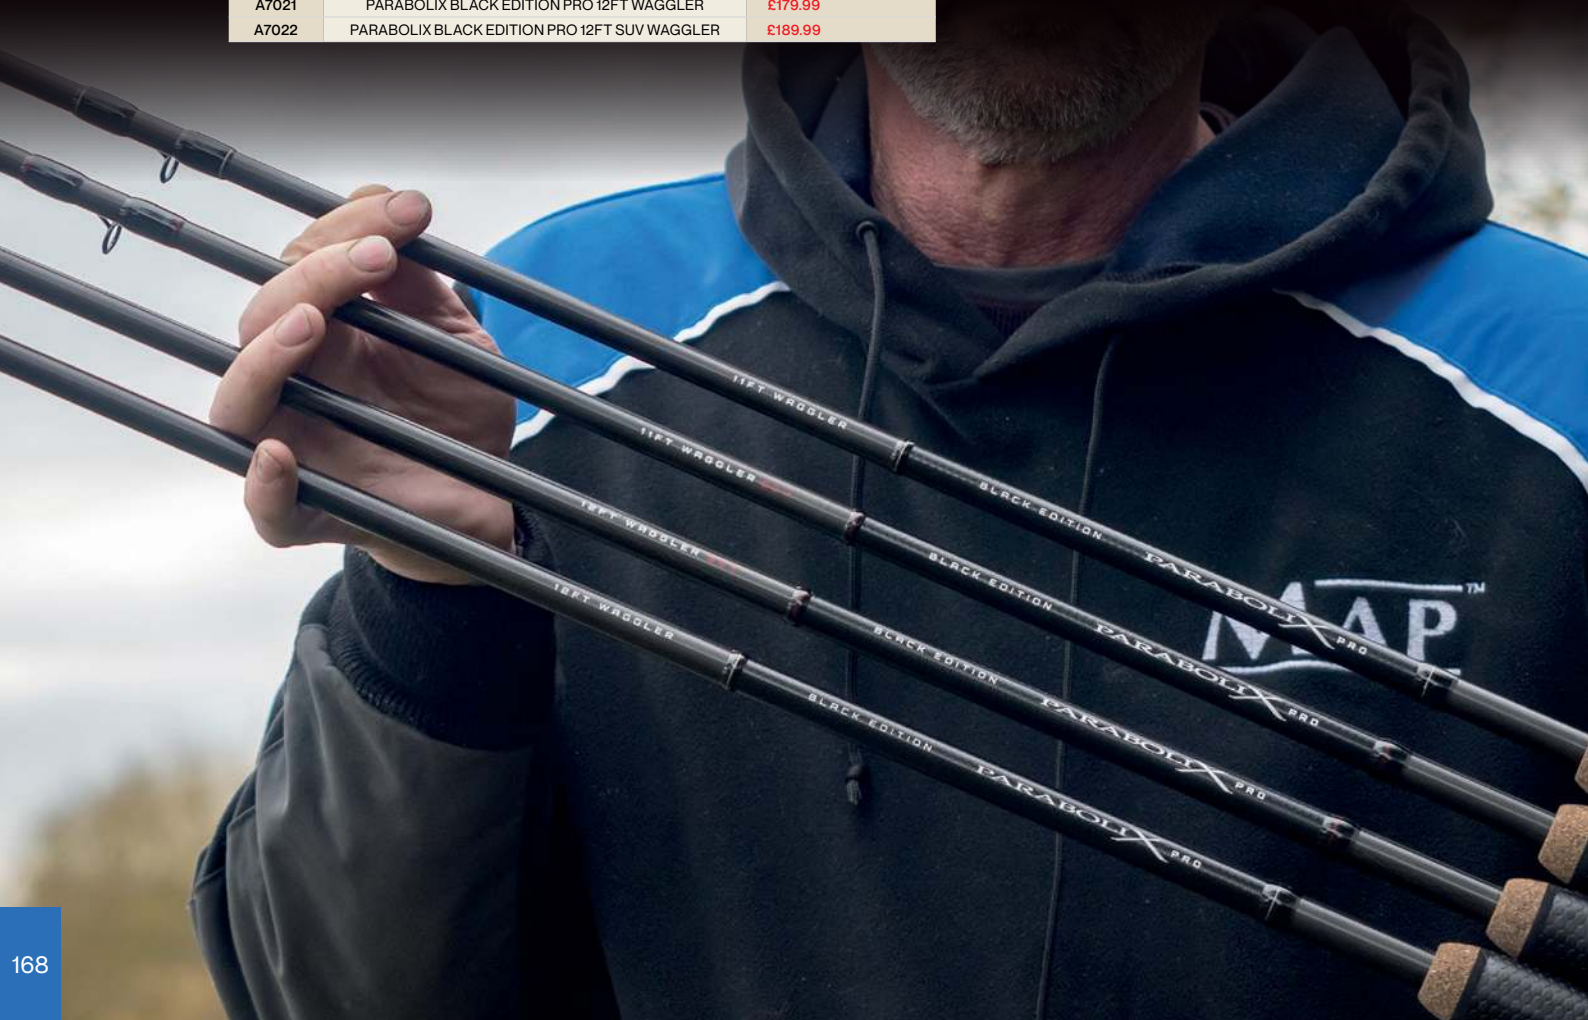

from £189.99

The Black Edition Pro rod range offers all the requirements of the modern-day match angler. With a choice of thirteen rods in the range, there's a rod that covers all fishing situations, from silver fishing on natural venues to commercial carp fishing. Manufactured using ultra high modulus carbon, each rod in the range has been specially designed for the job its deigned to do. We have increased the power in the butt sections to ensure casting accuracy, and tweaked the actions on the carrier sections to blend in with the new tip material we have used on all the quiver the tips. Totally New to the range are two ultra lite feeder rods, that have been designed for silver fish fishing, and feature a very clever glass blended into carbon tip, that's ideal for improved bite detection from silver fish.

Generation Rods

from £69.99 NEW

New for 2025 is a new range of rods from MAP that offer outstanding quality for the money. Featuring the latest in carbon technology we have used 30T carbon to create a much slimmer, lightweight blank which improves the overall performance and action of this rod range. The Generation Pro rod range consists of 6 rods, with a mix of feeder and float rods to cover a wide variety of fishing situations. Using 30T carbon allows us to offer a perfect blend of balance to the overall rod action and also creates an incredible through action that eliminates fish hook at the net. This action still allows you to cast with accurately over distance with feeders due to the faster taper in the lower section of the blank. The Generation Pro Feeder rods are supplied with three quiver tips, size depending each model, with each tip designed to be used perfectly with each rod, which improves its overall performance and eliminates any flat spots where it meets the carrier section. Each feeder rod is very versatile and will be at home on a wide range of venues, from commercial carp fishing to river fishing.

- High quality 30t Carbon Blank Construction
- Quality Sea-Guide Guides
- DPS Down Locking Reel Seat with EVA Top Grip
- Quality Cork Armlock
- EVA Rear / bottom Grip
- Feeder rods supplied with three Quivers Tips
- Supplied with rod bag

SB0117	QRS ACCESSORY BAR CLAMP	£12.99

Dual Pole Roller MK11

£139.99

- The MAP MK11 Dual Pole Roller offers incredible versatility. The central upright roller can be moved into different locations, allowing you to set up to double-ship in many different ways, or the upright roller can be completely removed to create a bigger open shipping aera. The horizontal rollers are made from a super-soft foam that results in less vibration bounce when shipping the pole, with Each roller featuring two stainless steel bearings to ensure ultra smooth shipping. The four main legs are telescopic legs for easy set up, but the legs are also detachable by pressing the release button, allowing you to use sorter or longer legs so you can tailor it to your particular fishing venue. The frame also features anchoring points, so if you want to weight the roller down or even tie down guy ropes when it's windy, you can do so.

R2780	DUAL POLE ROLLER MEDIUIM MKII	£139.99
R2781	DUAL POLE ROLLER LARGE MKII	£159.99

Dual Pole Roller Central Roller MK11

£9.99

- Spare central roller for Dual MK11 Pole Roller

R2782	DUAL POLE ROLLER CENTRAL ROLLER MKII	£9.99

Dual Pole Roller Long Leg Set MK11

£49.99

A set of 4 telescopic legs that are designed to be used in conjunction with the MK11 Dual pole roller. These extra-long sets allow you to set the roller higher, or deal with sloping banks behind you.

- Set of four telescopic legs
- Leg length 92cm
- Leg length when extended 160cm
- Camlock fittings
- Supplied in padded storage bag

R2783	DUAL POLE ROLLER LONG LEG SET MKII	£49.99

MAP Dual Pole Roller Roost Large

£29.99

The Dual Pole Roller roost has been designed to fit the MKII Dual Pole roller, and will turn the roller into a roost support for both rods and top kits. This unique roost is ideal when fishing big open waters when you need extra weight and stability to prevent stored items being blown off and damaged. It can also be used as a general roost for top kits and rods when on commercials, rivers or natural venues. To fit the Roller Roost, simply removed the middle roller on the pole roller, and place the roost over the two end upright rollers.

- Designed to be used with the Large MK11 pole roller
- Perfect for supporting rods and top kits
- 18 EVA roost heads
- Lay Flat design
- Ultra stable

R2786	DUAL POLE ROLLER MK11 ROOST LARGE	£29.99

MAP Dual Pole Roller Roost Medium

£34.99

The Dual Pole Roller roost has been designed to fit the MKII Dual Pole roller, and will turn the roller into a roost support for both rods and top kits. This unique roost is ideal when fishing big open waters when you need extra weight and stability to prevent stored items being blown off and damaged. It can also be used as a general roost for top kits and rods when on commercials, rivers or natural venues. To fit the Roller Roost, simply removed the middle roller on the pole roller, and place the roost over the two end upright rollers.

- Designed to be used with the Medium MK11 pole roller
- Perfect for supporting rods and top kits
- 12 EVA roost heads
- Lay Flat design
- Ultra stable

R2787	DUAL POLE ROLLER ROOST MK11 MEDIUM	£34.99

X4 Extending Barrow MKII

£239.99

The X4 MKII barrow features an innovative extending main frame that allows extra storage when transporting all your gear to your peg. This super strong 4 wheeled barrow, features a fully welded steel frame, double brace handle with a rear storage bag, protective box support arms, and extending handles.

- Extending main frame
- Extending fully adjustable Handles
- Rear storage bag
- 4-wheel design
- Compatible with most makes of seat boxes
- Supplied with carrycase

SB0076	X4 EXTENDING BARROW MKII	£239.99

X2 Extending Barrow

£189.99

The X2 barrow not only features an extending main frame that allows extra storage, but also features an optional wheel configuration allowing the barrow to be transformed into an all-terrain barrow.

- Extending main frame
- Rear storage bag
- 2 wheel design
- Optional wheel configuration
- Compatible with most makes of seat boxes
- Supplied with carrycase

SB0060	X2 EXTENDING BARROW	£189.99

Front Barrow Bags

from £24.99

A clever front storage bag that fits directly onto the front of either the X2 or X4 barrows. Ideal for extra storage of bait bags, net bags or EVA net bags.

- Fits X2/X4 barrows ·Ideal when extra storage is required
- Drainage holes in base of bag
- Designed to accommodate the MAP EVA net bags and other items
- XL Dimensions: 59.5x30x27cm
- XXL Dimensions: 59.5x30x39cm

SB0077	X4 FRONT BARROW BAG XL	£24.99
SB0078	X4 FRONT BARROW BAG XXL	£29.99

Ready Rod Protection Cases

from £189.99

Manufactured in a hard ABS, these cases offer unrivalled protection for transportation of ready-made rods from the boot of your car to the bankside. Two sizes are available; the standard can take up to five made-up rods with the wider XL version taking up to eight made-up rods, depending on rod length and configuration. Each case offers soft, EVA foam inserts that protect your rods and hold them safely in place; these inserts can be positioned anywhere within the case to suit the length of the rods stored inside and the rod guide configuration . Both cases will accommodate rods up to 12ft in length, and the spacious reel cavity is designed so reels can be staggered for the best fit, and also to work with various rod handle lengths. The wipe-clean exterior is designed to withstand the harshest of weathers and the clamshell design with full perimeter zip means access is never compromised. Exterior touch points include a carry handle and clipping points for the detachable shoulder strap.

- ABS construction for total protection
- Designs to accommodate 12ft, two-piece rods
- Protective foam inserts
- Built-in carry handle
- Adjustable shoulder strap
- Standard Rod Case Dimensions: L190 x W25 x H23 cm
- XL Rod Case Dimensions: L190 x W40 x H23 cm

H1052	XL ROD PROTECTION CASE	£229.99
H1053	MEDIUM ROD PROTECTION CASE	£189.99

Quiver Tip Protection Case

£34.99

The perfect partner to our Rod Protection Cases, this ABS construction case is designed to accommodate and protect quiver tips. Featuring mesh pockets and a central Velcro strap to keep quiver tips secure, even when not in tubes. It can also accommodate distance sticks up to 80cm in length.

- Manufactured in ABS shell for protection
- Designed for storage of poles and kits without the need of plastic tubes
- Internal base pockets and Velcro retaining straps
- Soft inner lining for extra protection
- Carry handle
- Adjustable shoulder strap
- MAP zip pullers
- Standard Pole Case Dimensions: L190 x W15 x H14 cm
- XL Pole Case Dimensions: L190 x W25 x H14 cm

H1054	Q CASE QUIVER TIP PROTECTION CASE	£34.99

Pole Protection Cases

from £129.99

MAP pole Protection case's makes pole and kit transportation safe and quick. Each case is manufactured in a tough ABS moulded shell, that's not only robust, but also enables poles and top kits to be stored inside without the need of plastic tubes. The inner features soft lined material that offers protection for you pole and kits, and Each side features Velcro straps to keep everything secure.

Parabolix Ultra 11 4m Landing Net Handle

£220.00 NEW

Introducing one of the strongest and thinnest landing net handles currently on the market. Using the same graphene resins we have used in the new TKS poles, we have now produced possibly the best landing net handle ever made. This 4m handle is simply incredible. Super rigid and responsive with a diameter of less than 27mm at the base.

- Features:
- Ultra slim
- Manufactured using Graphene resin
- 4M three section handle
- Ultra-rigid and ultra-strong
- Nickel coated brass pinned thread

Q0675	PARABOLIX ULTRA 11 4M LANDING NET HANDLE	£220.00

Parabolix Pro B/E 4M Landing Net Handle

£135.00 NEW

This 4m landing net handle is incredibly strong and robust and has been designed for catching big weights. We have incorporated a grip on the base of the handle, that prevents your hands slipping when wet, and offers a solid grip when landing fish. The handle can be used at two different lengths, 2.8m or 4m thanks to a nickel coated brass thread on two of the sections.

- 4m landing net handle
- Anti-slip grip on base of handle
- Incorporates a double-thread system so the handle can be used at either 4m or 2.8m
- Ultra-strong high-modulus carbon
- Supplied in plastic tube

Q0676	PARABOLIX PRO B/E 4M LANDING NET HANDLE	£135.00

Extremsis 4m Landing Net Handle

£75.00 NEW

The 4m Extremis Landing Net Handle is powerhouse, and ideal for commercials where your catching big weights. This landing net handle is a total breast, but still lightweight and well balanced. This handle can we used at two different lengths – 2.8m and 4.0m, and features a anti slip grip handle.

- Ultra-rigid 3-piece handle
- Incredibly strong
- Ideal for commercials
- Anti-slip handle
- Nickel coated brass thread

- Ideal for all kinds of fishing

Q0640	GENERATION 2.8M POWER HANDLE	£39.99

Shallow 1 Pole Float

£2.65 NEW

The MAP pole float has been in development for a long time, and we are now launching the first ranges that will cover most of your shallow fishing and margin fishing requirements, as well as the first addition or our 'deck' fishing range. This new pole float range is individually hand made by one on the most established and best float makers in the UK, and have been tried and tested thoroughly by our team of anglers. Each float is incredibly strong, using IGF110 material for the body, and with every pattern features a hybrid power eye, which makes them almost inscrutable, and possibly the strongest commercial pole floats available.

- Designed for shallow fishing / mudline fishing
- Incredibly strong
- Overall length – 100mm to 105mm
- 2.0mm hollow fluorocarbon bristle spined
- 0.8mm carbon stem
- Dura side eye
- Body material IGF 110

M1150	SHALLOW 1 POLE FLOAT 0.1G	£2.65
M1151	SHALLOW 1 POLE FLOAT 0.15G	£2.65
M1152	SHALLOW 1 POLE FLOAT 0.2G	£2.65

Shallow 2 Pole Float

£2.65 NEW

- Designed for shallow fishing / mudline fishing
- Incredibly strong
- Overall length –65mm to 72mm
- 2.0mm hollow fluorocarbon bristle
- 1.0mm hard glass stem
- Dura side eye
- Body material IGF 110

M1153	SHALLOW 2 POLE FLOAT 0.1G	£2.65
M1154	SHALLOW 2 POLE FLOAT 0.15G	£2.65
M1155	SHALLOW 2 POLE FLOAT 0.2G	£2.65

Shallow 3 Pole Float

£2.65 NEW

- Designed for shallow fishing / mudline fishing
- Incredibly strong
- Overall length –72mm to 80mm
- 2.0mm solid fluorocarbon bristle
- 0.8mm hard glass stem
- Dura side eye
- Body material IGF 110

M1156	SHALLOW 3 POLE FLOAT 0.1G	£2.65
M1157	SHALLOW 3 POLE FLOAT 0.15G	£2.65
M1158	SHALLOW 3 POLE FLOAT 0.2G	£2.65

Margin 1 Pole Float

£2.65 NEW

- Idea for margin fishing
- Incredibly strong
- Overall length – 132mm to 138mm
- 2.6mm Hollow Flouro – spined bristle
- 1.0mm hard glass stem
- Dura side eye
- Body material IGF 110

M1160	MARGIN 1 POLE FLOAT 0.3G	£2.65
M1161	MARGIN 1 POLE FLOAT 0.4G	£2.65
M1162	MARGIN 1 POLE FLOAT 0.5G	£2.65

Margin 2 Pole Float

£2.65 NEW

- Idea for margin fishing
- Incredibly strong
- Overall length – 102mm to 106mm
- 2.5mm solid fluorocarbon bristle
- 1.0mm hard glass stem
- Dura side eye
- Body material IGF 110

M1163	MARGIN 2 POLE FLOAT 0.3G	£2.65

M1173	DECK 1 POLE FLOAT 0.5G	£2.65

Embed Inline Feeders

from £3.25 NEW

The Embed Method feeder is a new addition to the Embed feeder range. Each feeder features a front-loaded design, to ensure maximum casting distance and accuracy. It also features a cleverly designed sloped base that creates less water displacement when the feeder lands on the water's surface. This sloped base not only protects the bait on the feeder from being dislodged and coming off on impact when casting, but also creates less noise on impact, creating a 'plop' when entering the water. Each feeder features a soft, line friendly rubber line grip that retains your hook length to ensure it remains in place all the time, offering you perfect bait presentation. The clip also allows you to adjust the length of hook length, and the direction of the hook point, and is easily released from the grip when a fish is hooked, making it totally fish safe.

- Features:
- Unique line friendly rubber line grip to hold hook length in place for perfect bait presentation
- Line grip allows the length of hook length to be adjusted easily and ideal for wafters or popped up hook baits, as well as other baits like pellets etc
- All sizes of feeder are front loaded for aid casting distance and accuracy
- Sloped base creates less water displacement and protects the bait in the loaded feeder on impact
- Interchangeable system so feeder size and weights can be changed with ease
- Supplied with easy-to-use hook length connector
- Lead free

Embed Inline Feeders

The ultimate feeder for perfect bait presentation

£3.25

No matter how you load a method-style feeder, you never quite know what happens to your hookbait underneath the surface. Hookbaits can be displaced on impact when the feeder hits the water, or moved off the 'dinner plate' by fish's tails when the bait inside the feeder has softened after being submerged. The importance of having your hookbait positioned correctly can't be understated, especially during winter when you are waiting longer for a bite. The Embed Feeder is the solution to this problem. The Embed Feeder features a soft, line-friendly grip that retains the hook length to ensure it remains in place, the ultimate in perfect bait presentation! As bait on the feeder breaks down or becomes loose, the hookbait will stay in position, meaning it's always in the primary position to be sucked in by fish. The slotted rubber grip also allows you to adjust the length of hook length within the feed to tailor the setup to how fish are feeding or how you want the hookbait to react, perfect for wafters and pop-ups where you want to control bait movement. When a fish takes the bait, the line will pull from the grip, engaging against the feeder to set the hook in a totally fish-safe manner. Of course, the Embed Feeder can be fished conventional style by either leaving the hook length outside the feeder or by not utilising the rubber grip.

Key features

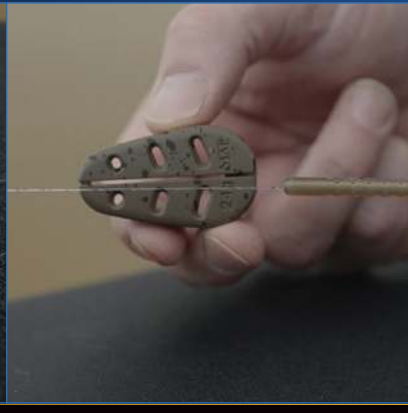

- Unique integrated line grip – a world first!
- Front-loaded design improves casting accuracy and range
- Perimeter weighting means a deep bait cavity for improved aerodynamics
- Olive camo to blend in with the majority of conditions
- Available in three body sizes – small/medium/large
- Two sizes of inline tube available (short 65mm/long 90mm)
- Supplied with hook length connector and rubber tail cap

R6508	EMBED LARGE INLINE TUBE (2 PCS)	£2.49

Designed to Maximise Performance

Our in-house design and develop ment team have created a feeder that is front loaded to ensure accurate casting no matter the range, with maximum range achievable every time.

The Embed Feeder features a sloped base that creates less water displacement when the feeder lands on the water's surface. This not only protects the bait within the feeder from being dislodged on impact with the water, but also less noise.

The tapered base vents on the feeder are another clever design feature; they feature an angled surface that opposes the direction that the feeder travels through the water, minimising water pressure to prevent the groundbait or pellets being forced off as the feeder falls sub-surface.

The deep sides mean you can form a bed of bait, with the hookbait positioned on top, and it is still highly aerodynamic to aid casting accuracy.

Each Embed Feeder is based around an interchangeable design, meaning feeder bodies can be changed easily so you can adapt to condition or feeding habits quickly without the need to disassemble the rig. The inline design is also fish-safe with two stem lengths available to suit short and long range fishing. Hooklengths are attached via our unique connector, supplied with every Embed Feeder.

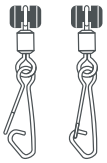

Features a super-soft line grip.
Set your hooklength for perfect bait presentation.

Feeder Beads

£1.99

The plastic bead allows the feeder or lead to glide effortlessly on your mainline. Featuring a quick-change link swivel allowing you to change your feeder or lead with ease.

R1031	FEEDER BEADS	£1.99

Catapults

£11.99

The new Anti-Twist catapults have been designed to be used with a single piece of elastic running through the hollow frame. As this design doesn't require extra fixing points on the frame, this eliminates any twist on the elastic that leads to tangles. They feature soft touch rubber handles, PTFE inserts in the frame to prolong elastic life and strong and durable pouches

- Anti twist design to eliminates tangles
- Single elastic through frame design
- Durable moulded mesh pouch
- Soft touch rubber handle
- PTFE bushes to prolong elastic life ·Durable hollow elastic
- Ideal for particle baits
- Available in two sizes
