POLES / ACCESSORIES

MV-RXX PRO 16M

The MV-RXX is now a household name in the industry, synonymous with perfection in many ways, and something that anglers are proud to own. Award-winning and dubbed the 'dawn of the Hyper-pole era', this really is something we are truly proud of.

But, we at Maver HQ are always striving to continually raise the bar, which is why the MV-RXX PRO was born!
Still retaining all the same features as the RXX that everyone's come to know and love, including the 18mm mandrel, the biggest change with our PRO version is the brand new carbon fibre integrated into the manufacturing process.

The top-quality M9 carbon material is typically found in windsurfing division, meaning strength is increased whilst also being able to easily withstand and resist any further tension that may occur from strong winds or those feisty larger fish. Don't panic - the lightweight properties are all still there, giving you extra without any compromise.

Our Reglass partners have incorporated the very best of European technology, along with our patented features, to ensure this pole will be nothing short of flawless. The finishing touch of our exclusive 'AFS' anti-friction coating makes this a dream to hold in your hand.

We know this pole is unique, so we've also paired it with a stunning pole package, providing everything you could need and more. Topkits, additional sections, and even one of our Pole Protection Cases to store it all in, making sure your new purchase is looked after.

Speaking of, we're also giving you our complimentary 1-year manufacturer's warranty to give you the ultimate peace of mind when out on the bank.

Are YOU going to turn PRO?

12 MONTHS MANUFACTURER WARRANTY

MV-RXS PRO 16M

You can't have one without the other!

Our popular MV-RXS model was brought out as another option for those not wanting to stretch to the flagship but still wanting a fantastic pole. But with the upgraded carbon technology now found in the RXX PRO, we couldn't leave this beauty behind too!

The MV-RXS PRO is still made with high-grade M8 carbon fibre, but this specific type of M8 carbon fibre is also used in making windsurfing division, so resistance to tension from strong winds and hard fighting fish is greatly improved whilst still remaining lightweight.

Built on the same slim 18mm mandrel, Reglass have made sure to still incorporate the very best of European tech, along with our patented resigns, and of course, our exclusive 'AFS' finish for silky smooth handling.

We can't have a pole this good without also pairing it with a stunning pole package, providing any new owners with plenty of topkits and even a Pole Protection Case to house it all in.

It's time to turn PRO!

MV-R

MV-R S1000 14.5M

NEW

With recent developments in carbon fibre technology, we at Maver pride ourselves on bringing you the very best, especially when it comes to poles. With our upgrades to the RXX and RXS models, we decided it's time to produce a complete range that offers incredible quality that caters to multiple budgets.

The S1000 model is constructed with a new M7 carbon type, one that is used in Reglass' windsurfing division, to increase resistance to tension commonly found in the angling world when battling strong winds or tackling larger fish.

We're certainly not cutting corners when it comes to developing this awesome pole, with Reglass incorporating our typical exclusive manufacturing features found on all our poles, such as European technology and patented refinements, including the loved 'AFS' finish to provide that silky smooth feel to our sections.

Bringing excellence without paying over the odds, the S1000 uses our familiar 22mm mandrel, making interchanging within the range straightforward. For anyone wanting to upgrade from a previous model that shares the same bore size, including the Signature Pro, Oculus, and Definition predecessors, interchangeability has been made effortless.

The pole package supplied with this pole provides any new owner with enough Powerlite topkits to cover plenty of options, along with a cupping kit, and a mini extension to add onto the 14.5m section. All items will come within a Pole Protection Case to provide protection and making transporting your carbon simple.

To provide peace of mind when in use, each pole comes with a customary 12-month warranty, covering any manufacturing faults that may occur.

12 MONTHS MANUFACTURER WARRANTY

MV-R S2000 16M

NEW

With recent developments in carbon fibre technology, we at Maver pride ourselves on bringing you the very best, especially when it comes to poles. With our upgrades to the RXX and RXS models, we decided it's time to produce a complete range that offers incredible quality that caters to multiple budgets.

Made with a brand new M8 type of carbon fibre that's found in Reglass' windsurfing division, the S2000 has impressive tension resistance, making this pole stand out when in strong winds, or throughout harsh battles with hard-fighting fish.

Our Reglass partners have given this model the same top-quality manufacturing essences that are now a staple with our poles, incorporating the very best of European technology and exclusive features within each section to provide an exceptional performance every time, including the added Teflon joints, removing carbon-to-carbon wear and increasing the longevity of the pole.

We've ensured this pole is built on our standard 22mm mandrel to make interchanging within our current ranges painless, and guaranteeing that previous poles, including Signature Pro, Oculus, and Definition models also follow suit.

The S2000 sits at 16m at its longest range and is supplied with plenty of additional carbon to make up the pole package. A total of six topkits, three Powerlite and three Commercial Power, for endless options, a cupping kit, and an added mini extension for the 16m section. Housed within a Pole Protection Case, transporting this pole will be both safe and efficient.

To provide peace of mind when in use, each pole comes with a customary 12-month warranty, covering any manufacturing faults that may occur.

MV-R S3000 16M

NEW

With recent developments in carbon fibre technology, we at Maver pride ourselves on bringing you the very best, especially when it comes to poles. With our upgrades to the RXX and RXS models, we decided it's time to produce a complete range that offers incredible quality that caters to multiple budgets.

A new M8 carbon type is the heart of the S3000, with this carbon fibre being found in Reglass' windsurfing division, boasting impressive resistance to added tension, whether it be strong winds or hard-fighting fish – this pole can handle it all with ease.

The very best of European science has been fused into this model, thanks to our partners at Reglass, with our exclusive resins and patented finishes being included. Our famous 'Nanolith' technology bonds honeycomb metal fibres to the outer surface, increasing wall-strength to help withstand the pressures of today's fishing scene.

To make this pole available to anglers everywhere, we've made sure interchangeability is effortless by creating this model on our 22mm mandrel. For those owning a pole from our current range, or any pole from previous years including Signature, Oculus, and Definition models, upgrading to the S3000 is made as easy as possible.

stellar pole package is combined with this exceptional pole, offering all new owners with a substantial number of extras. A grand total of 8 topkits, a cupping kit, an additional long number 4 section, plus a short number 4 section, and even a mini extension, which all come housed in an Pole Protection Case for safe keeping.

To provide peace of mind when in use, each pole comes with a customary 12-month warranty, covering any manufacturing faults that may occur.

MV-R ELITE 10M

A brand new addition into our impressive pole range comes the MV-R Elite pole.

Only 10m in length and manufactured from top-quality carbon fibre, this pole makes a great newcomer pole for adults and juniors alike, but also perfect for those not wanting a full length pole.

Still consisting of the same quality as our current poles, it's all just packed into this smaller beauty that's ideal for today's commercial waters.

Alongside this pole, a generous pole package is supplied, providing any new owner with a sufficient number of topkits to cover multiple situations.

What we have yet to mention is that this pole will come housed in a Pole Protection Case absolutely free of charge, so you can ensure that your precious carbon won't get damaged.

TRI CORE
ELASTIC

The ultimate in power elastic is the incredible Tri-Core, manufactured using an innovative triple core hollow system. Unbelievable strength, tough & durable elastic allowing superior control when catching big weights of hard fighting carp. The triple core construction gives far more power than traditional hollow elastics, putting you in control of the fish, enabling the angler to build up huge match winning weights quickly and efficiently. Available in both 2.5m and 5m lengths, allowing for easy elastication of either one or two power kits.

Code	Model	Colour	RRP	Pack
J1160	TRI CORE PRO MATCH ELASTIC 12-14 2.5M	YELLOW	£13.99	5
J1161	TRI CORE PRO MATCH ELASTIC 15-18 2.5M	ORANGE	£13.99	5

DUAL CORE
PRO ELASTIC

The Dual Core Pro hollow elastics are more forgiving than their predecessors offering a superior fish playing action. Manufactured using the twin core hollow system, the Dual Core Pro benefits from an amber inner core, which vastly improves the elasticity and incr eases the applications available for each grade in the range. Available in both 2.5m and 5m lengths, allowing for easy elastication of either one or two power kits.

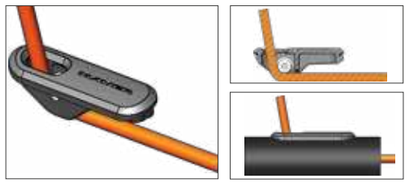

Code	Model	Colour	RRP	Pack

7 SIZES AVAILABLE

MAVER
ROLLER SLOT

A superb, ground-breaking Roller Slot, featuring an integrated PTFE roller for ultra-smooth flow of elastic. The Roller Wheel situated on the inside of the pole is made from PTFE, firmly held in place with a stainless steel pin. This ingenious design allows the elastic to be held away from the walls of your top kits, by centralising the elastic in the kit, creating a super smooth flow, resulting in more fish being landed. Drilling template included. Made in UK.

Developed in the United Kingdom

X-SERIES
S2023 SEAT BOX

Made in Italy, the Maver S2023 seatbox is an ingenious new station, designed with both practicality and comfort at the forefront of production. With a clever 4-leg system permitting for an easy set-up, each leg bears a telescopic adjustment to secure stability on even the most treacherous of terrain. Featuring oversized mud feet to give additional solidity, the seat has been tailored to ensure correct posture when fishing for long periods. This box comes with plenty of storage space, including two deep front drawers and winder trays, allowing for customisation to tailor to every fishing discipline. Combining the sophisticated construction details along with the aesthetically pleasing visuals creates a truly excellent, trustworthy seatbox that is guaranteed to stand the test of time.

QUICK LOCK
MV-R SIDE TRAY WITH AWNING (L)

A perfect compliment for all seatboxes, featuring our new QUICK LOCK system. Self supporting, removing the need for extra legs, with the added awning providing protection from the elements.
Dimensions: 600mm x 450mm

Code	Model	RRP	Pack
L1401	QUICK LOCK - MV-R SIDE TRAY WITH AWNING (L)	£99.99	EACH

The Maver QUICK LOCK is a brand-new locking system that's designed to make connecting attachments easier than before.

The horizontal hinge system creates a clasp which wraps around the leg, with the simple push latch mechanism holding it together. The added hand-wheel allows for tightening for stability and restricting unwanted movement.

This design makes adding or removing accessories quick and easy, without the worry of having to disassemble multiple components first, saving valuable time that can be instilled into other tasks.

The Quick Lock system accommodates the need for adaptability throughout bankside sessions, on occasions when swapping accessories may be necessary, providing ultimate efficiency. Strong and reliable, this new system is guaranteed to make setting up effortless for anglers around the country.

QUICK LOCK
MV-R KEEPNET ARM

Provides the perfect fixing point for your keepnet. The QUICK LOCK fitting allows this to be used on almost all legs in different dimensions.

MV-RXX CARP
FEEDER RODS

11FT

Rods fit for Royalty, our new MV-RXX Carp Feeder rods are the perfect weapons for battling it out with warriors of the deep. Manufactured with the highest quality 1k carbon fibre weave, the inclusion of American Tackle snagless guides and Fuji reel seats gives further enhancements for a stunning performance.

Undergoing harsh testing and intensely scrutinised to comply with our high demands, every inch of this blanks has been tweaked and tinkered with until perfection was achieved. The ultimate balance of playing power, casting, and comfort was the goal, and we're proud to say we've accomplished just that.

Supplied with two carefully graded hollow tips in 2.0oz and 2.5oz, they provide a superb action in both casting and playing capabilities, producing an ultra-responsive nature that highlights every single moment throughout the fight with the fish.

Incorporating a bespoke flat cork handle not only helps with both balance and comfort, but also improves an already impressive performance, making these rods an absolute joy to use.

Available in 11ft, with the distance rods being 12ft and 13ft in length.

Code	Model	C/Weight	RRP	Pack
A3071	MV-RXX FEEDER 1K CARBON - 11FT	20-60g	£189.99	EACH

MV-RXX DISTANCE
FEEDER RODS

12FT 13FT

Launch your leads to extreme lengths with our MV-RXX Distance Rods. Packed with plenty of punching power, these slim-line rods are absolute beasts, branding the 'RXX' logo, proving their stature. Placed under intense testing and pushed to the limit to ensure even the acute details are nothing short of perfect, these rods have a complete mix of playing power, accuracy, and comfort to guarantee the best experience with every use.

Manufactured with the highest-grade 1k carbon fibre weave, American Tackle snagless guides for smooth casting and retrieval, and incorporating Fuja reel seats for ultimate luxury and to maintain impeccable balance. In order to let fly over incredible distances, two carefully graded hollow tips are included – 2.5oz and 3.0oz – giving more than enough backbone to engage and tame even the hardest fighting fish.

Designed with a bespoke flat cork handle which not only improves comfort when in use, but also increases performance. Available in 12ft and 13ft lengths.

MV-RXX CARP
WAGGLER RODS

10FT 11FT

Blanks built for bagging, our new MV-RXX Carp Waggler rods are the most ideal tools for any type of float fishing. No matter whether it's fishing on the deck with a straight waggler, or up-in-the-water during the summer months with a bit of pellet waggler work, these extremely versatile rods boat plenty of backbone to handle even the hardest fighting fish.

Manufactured with the highest grade 1k carbon fibre weave, the added American Tackle snagless guides provides excellent casting proficiency, with the Fuja reel seats ensuring incredible balance with a variety of sized reels. Tested to the max on a variety of waters, each and every detail of these rods have been perfected to create an unreal user experience at consistently high levels – one that brings you closer to the fish.

A true powerhouse in any angler's armoury, these rods are certain to go above and beyond expectations and alleviate the bar to unprecedented levels.

LUGGAGE / CASES

ROD
PROTECTION CASE

The outer, hard ABS shell provides an excellent shield from any accidental damage during transport, with water-resistant zippers for when those downfalls occur.

Inside, its ability to hold 6-8 rods makes this a dream for trips away, festivals, or for covering your options when you're next on the bank. The adjustable, carved EVA blocks limits any internal movement yet still being soft enough to not further damage the contents.

Finished with a comfortable carry handle and padded shoulder strap, this is soon to be a staple piece of kit in any armoury.

MAVER
XL CARRYALL

Designed to accommodate a diverse array of larger and more cumbersome items—primarily pole rollers—the XL Carryall effortlessly holds Pole Rollers. It also offers ample space for additional gear such as pole rests, roosts, feeder arms, and side-tray legs, among other essentials. Beyond the main storage compartment, there is an expansive front pocket, ideally suited for smaller accessories, Rig Cases, and various tackle components. Additional storage is available in the zippered compartment beneath the lid, which is perfect for safeguarding an angler's wallet, phone, and keys while fishing. Consistent with the entire luggage range, this carryall is crafted from exceptionally durable materials, capable of bearing substantial weights typically transported in such a system. It features a hand carry strap with a Velcro grip and an adjustable, detachable shoulder strap designed for maximum comfort.

Size: 900mm(W) x 350mm(H) x 425mm(D)

LARGE

Transport your nets after that brilliant session with our new MV-R EVA Large Net Bag.

This compact design can hold 4 keepnets plus landing nets, or any long accessories that won't fit in your carryall. The high-quality, robust EVA material ensures all potential seepage and smells are held within the four walls of the bag, aiding transport, and helping to keep your vehicle cleaner. With comfy carry handles and shoulder strap, no matter what you put inside, lifting is made super easy.

Dimensions: 215mmW x 510mmL x 595mmH

MEDUIM

Transport your nets after that brilliant session with our new MV-R EVA Medium Net Bag.

This compact design can hold 2 keepnets plus landing nets, or any long accessories that won't fit in your carryall. The high-quality, robust EVA material ensures all potential seepage and smells are held within the four walls of the bag, aiding transport, and helping to keep your vehicle cleaner.With comfy carry handles and shoulder strap, no matter what you put inside, lifting is made super easy.

Dimensions: 160mmW x 510mmL x 600mmH

EVA ZIP UP ACCESSORY CASE

Store your important and needed tackle items whilst providing protection with our EVA Accessory Cases. Made with high-quality, strong EVA material that offers both dust and water resistance, these cases are the perfect storage bags that can be easily packed away inside a carryall for on-hand usage whenever they are needed. The transparent lid means you can view the contents quickly, and the firm zipper guarantees everything stays put within the case. The additional heat-welded carry handle on the lid makes for easy and comfortable lifting.

MV-R X35 NEW
WATERPROOF JACKET

Combat any relentless downpours with the MV-R X35 Waterproof Jacket, designed to keep even the worst of weather from drenching anglers.

The 20,000mm waterproof rating provides an unrelenting shield from deluges, with fully taped and stitched seams removing chances of leakages for absolute assurance.

A 3,000mm breathability rating boasts impressive airflow to repel moisture build-up within, ensuring comfortability when worn for hours on the bank.

Adapting to a variety of body types, the cord-lock adjustable waist and hem aids in finding the perfect fit that will not only keep out the rain, but retain body heat for maximum warmth during the colder months.

A high neck design helps prevent any seepages from typically exposed areas, paired alongside a windproof storm hood with stiffened peak to keep clear visibility when sheltering from the elements. The combined storm cuffs with Velcro closures establishes a controlled comfy barrier from water that could enter via the arms.

External main pockets makes valuables easily accessible, with further protection via storm flaps located over the zips to eradicate possible damp.

Made with OEKO-TEX, with generous sizing to allow for multiple clothing layers to be worn underneath, every angler will find their fit to enhance their fishing adventure.

MV-R X35 NEW
WATERPROOF BIB & BRACE

Designed to withstand even the worst conditions, our MV-R X35 Bib and Brace is built to last, providing every angler with incredible shelter from harsh precipitations.

Boasting a 20,000mm waterproof rating, even the heaviest of downpours are prevented from soaking through, providing confidence when on the bankside. Additional fully taped and stitched seams prevent leakages, so full focus can remain on the fishing at hand.

Adaptable to accommodate every body shape, incorporating an elasticated waist, extra-wide shoulder straps, and adjustable leg lengths means that perfect fit can be achieved, ensuring comfort when worn for long periods of time.

Boosting the longevity of the garment, the reinforced knee panels helps combat the rigor of the angling world, whilst further increasing comfort levels on those long days.

Velcro-adjustable ankles at the base of the legs accounts for excellent versatility to tailor the fit to the necessary footwear required, including boots, to thwart those treacherous terrains.

Important valuables, such as keys and phones, can be kept safe and secure with the inclusion of zipped waist pockets, with storm flaps to fend off drizzle and ensure everything stays dry.

Made with OEKO-TEX, with generous sizing to allow for multiple clothing layers to be worn underneath, every angler will find their fit to enhance their fishing adventure.

BLACK MIX MATCH HOODIE

NEW

Our new Hoodie comes just in time for winter, with heat-retention absolutely at the forefront of this garment.

Keeping in-line with the stylish design, two grey panels bring distinct definition to the overall standard black colour, enhancing aesthetics and bringing a more modern feel.

Inside is a super soft lining that boasts luxury and raises the bar when it comes to comfort levels. To get the perfect fit, two drawstrings control the hood, being able to accomodate headwear when times get very cold.

Plus, important items, such as phones and wallets, can be kept safe and accessible, thanks to the kangaroo pouch located on the front.

With tactful Maver detailing to finish, this hoodie looks and feels like royalty.

KEEPNETS 114 - 115

LANDING NETS & HANDLES 116 - 119

NETS / HANDLES

MV-R CARP KEEPNETS

A purposely designed range of high quality keepnets for the commercial angler that have been developed and fully tested by the Maver product development team. The MV-R commercial carp nets feature durable materials imperative for lifting out weights of carp on a regular basis. Also incorporating a quality nylon neck along with a full aluminium frame structure. The smaller lower rings (the bottom three) allow you to pull the rings through easily when weighing in. Available in 2m, 2.5m & 3m. 50 x 40cm top ring - 45 x 35cm for the body of the net. A big hit with match anglers who regularly catch big weights of fish.

Code	Model	RRP	Pack
E484	MV-R 2.5M CARP KEEPNET	£53.99	EACH
E535	MV-R COMMERCIAL CARP 3.0M KEEPNET	£54.99	EACH

MV-R COMPACT KEEPNETS

The MV-R compact carp nets design enables more keepnets to fit on accessory bars. Featuring durable materials imperative for lifting out weights of carp on a regular basis. Also incorporating a quality nylon neck along with a full aluminium frame structure. The smaller lower rings (the bottom three) allow you to pull the rings through easily when weighing in. vailable in 2.5m & 3m. 50 x 40cm top ring - 45 x 35cm for the body of the net.

MV-RXX 4M LANDING NET HANDLE

Brandishing the now famous RXX nametag proving its stature, this incredible piece of kit is made with top-quality carbon fibre to ensure sheer strength whilst remaining lightweight so frequent use is anything but cumbersome.

Designed with 3-sections in a classic take apart configuration, there is a special duality embedded in this handle. Not only do you have the standard thread on the first section, a second has been implemented on the middle section for uses at shorter lengths, making it perfect for those in the need for speed!

Completed with a smooth matt finish for ultimate efficiency when in your hands, this is a handle only dreams are made of.

Code	Model	RRP	Pack
D425	MV-RXX 4M LANDING NET HANDLLE	£116.99	EACH
