PASSION, KNOWLEDGE, EXPERIENCE

There are moments you can't plan.
While most people are still asleep, enjoying their free time, there are those who arrive at the shores of their favorite waters at dawn. Regardless of the short sleep, morning dew, or thick fog, they embark on another adventure, one that may prove to be the trip of a lifetime. Because fishing is more than just catching fish. It's a passion, emotion, and a way of looking at the world. It's a lifestyle.

The need to be closer to nature, to find peace and escape the daily grind. These are moments that allow you to catch your breath, regain balance, and derive true joy from simple, authentic experiences, while momentarily setting aside the humdrum of everyday life.

The Mikado 2027 catalog was created for all those who seek more than just results on the water. For those who love the thrill of every cast, value freedom, contact with nature, and the satisfaction derived from every moment spent on a river, lake, reservoir, or simple pond. Behind every page of this catalog lie thousands of hours of testing, design, conversations, and experiences gained on the water. When creating products for the 2027 season, we wanted to provide you with equipment you can rely on in all conditions. Modern, refined, and ready for the most important moments on the water.

At Mikado, we believe that good equipment is more than just technology. It's confidence with every cast, comfort during long trips, and reliability when that one, dream opportunity arises. That's why we develop our products every year with you in mind – anglers who expect quality, durability, and maximum fishing satisfaction.

Because the best memories are made on the water.

In the silence of the morning. In the glow of the setting sun.

In emotions that stay with us for a lifetime.

Thank you for being part of the Mikado community.

That together we can create modern, conscious, and passionate fishing.

A new season awaits us. New challenges. New stories.

And more moments worth returning to the water for.

Thank you MFT
